Dear Sir,

The above-identified application is the U.S. national phase of the international application No. PCT/GB03/02509 and this continuity is correctly recorded in the USPTO Private Pair Announcements.

However, the publication of the subject application (Publication No. 2005/0232804) incorrectly cited the international application No. PCT/US03/02509 as a relevant application and included the disclosures of PCT/US03/02509 therein.

Applicants respectfully request to correct such errors in the subject application and to ensure that the granted patent is published correctly.

Please charge any additional fees to our Deposit Account No. 11-1410.

Respectfully submitted,

KNOBBE, MARTENS, OLSON & BEAR, LLP
